

**COMMODITIES
TRADING S.R.O.**

About company

Commodities Trading s.r.o. is an independent, dynamically developing company engaged in commodity trading operations in the wholesale markets of Europe, Ukraine, CIS and Baltic countries.

Activities of Commodities Trading s.r.o. is aimed at concluding export-import contracts with leading producers and suppliers of primary commodities and their further implementation to the end consumer.

Competitive advantages:

- Wide range of products
- Competitive pricing policy
- Availability of certificates of conformity and quality
- Timely delivery
- Efficiency in decision-making

1. Fuel and energy products

COAL

- A - anthracite
- Г - gas
- Ж - fatty
- К - coking
- Т - skinny

GAS

- Natural gas
- Liquefied petroleum gas

OIL AND OIL PRODUCTS

- Crude oil
- Gas condensate
- Wide fraction of light hydrocarbons

DIESEL FUEL

- ДТ EURO-4
- ДТ EURO-5

PETROL

- А-80
- А-92
- А-95

OILS

- М-10Г2К
- И-20А
- И-40А
- И-50А
- SN150
- SN500
- SN1200

FUEL OIL

- М-100
- М-40

2. Electrotechnical equipment

- Electrical goods
- Pumps and pumping stations
- Piston and rotary pumps
- Pumps, vacuum pumps
- Drive mechanisms
- Heat engineering
- Machine tools
- Generators
- Electrottools
- Compressors
- Heat pumps
- Solar collectors
- Spare parts for high-voltage equipment
- Spare parts for hydro generators and electric machines for hydroelectric power stations
- Rubber-technical products for nuclear power plants

3. Industrial equipment

- Cutting, screw-drilling, grinding machines and mechanisms
- Accessory machinery and equipment
- Drilling equipment and tools
- Crushing and screening equipment, mills, separators
- Hydraulics
- Pneumatics
- Power plants and power supply
- Conveyor systems
- Conveyors
- Trolleys
- Overload lifting installations
- Equipment and technologies for stock assessment
- Equipment for mine surveying
- Equipment for the development of mineral deposits
- Equipment for destruction (drilling, explosion, etc.)
- Equipment for open, underground, borehole, underwater mining
- Equipment for crushing and grinding, classification, gravitational, magnetic, electrical enrichment, dehydration

- Flotation machines
- Equipment for physical and technical control of production
- Mine rescue equipment
- Stands for adjustment of fuel pumps of diesel engines

4. Auto and special equipment

SPECIAL EQUIPMENT

- Motor Graders
- Bulldozers
- Vibrating packers
- Re-loaders
- Loaders
- Tipper trucks
- Scrapers
- Sealants
- Excavators
- Backhoe loaders
- Attachments
- Asphalt pavers
- Planers
- Rollers
- Machines for soil regeneration
- Trailers and semitrailers
- Garden and park technology
- Automobile technological transport

POWER INSTALLATIONS AND ENGINES

- For the oil and gas industry
- Industrial engines
- Ship engines
- Generators and power generating sets
- Industrial batteries

AGRICULTURAL MACHINERY

- Harvesting machinery
- Tractors
- Sprayers
- Forage harvesting machinery
- Sowing and tillage machinery
- Fertilizer spreaders
- Trailers
- Loaders

5. Cable and conductor products

CABLES AND WIRES FOR POWER ENGINEERING

- Power cables in the PII
- Power cables in PVC insulation
- Power cables in XLPE Insulation
- Power cables in rubber
- Fireproof cables
- Control cables
- Power wires
- Uninsulated wires
- Self-supporting wires

CABLES AND WIRES FOR CONSTRUCTION

- Power cables in PVC insulation
- Power cables in XLPE Insulation
- Power cables in rubber
- Fireproof cables
- Control cables
- Power cables
- Uninsulated wires
- Self-supporting wires
- Installation cables and wires

CABLES AND WIRES FOR METALLURGY

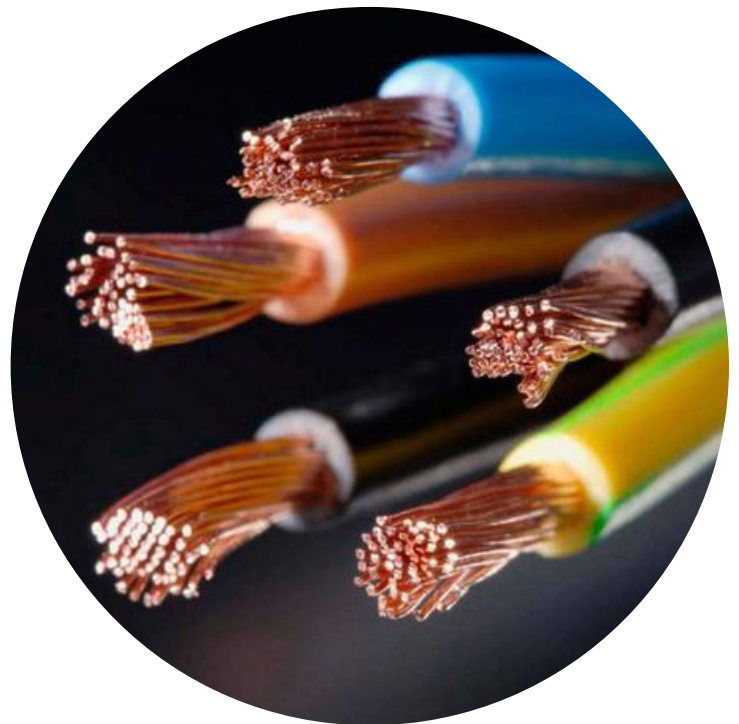

- Power cables in PVC insulation
- Power cables in XLPE Insulation
- Power cables in rubber
- Fireproof cables
- Control cables
- Power wires
- Heat-resistant wires
- Installation cables and wires

CABLES AND WIRES FOR THE OIL AND GAS INDUSTRY

- Power cables in PVC insulation
- Power cables in XLPE Insulation
- Power cables in rubber
- Fireproof cables
- Control cables
- Power wires
- Uninsulated wires
- Self-supporting wires
- Cables for submersible pump installations

CABLES AND WIRES FOR MACHINE BUILDING

- Power cables in PVC insulation
- Power cables in XLPE Insulation
- Power cables in rubber
- Fireproof cables
- Control cables
- Power wires
- Heat-resistant wires
- Winding wires
- Aerospace cables and wires
- Installation cables and wires
- Ship's wires
- Thermoelectrode wires

CABLES AND WIRES FOR TRANSPORT INFRASTRUCTURE

- Power cables in PVC insulation
- Power cables in rubber
- Power wires
- Cables and wires for electric transport

CABLES AND WIRES FOR THE MINING INDUSTRY

- Power cables in PVC insulation
- Power cables in rubber
- Power wires
- Mine and excavator cables

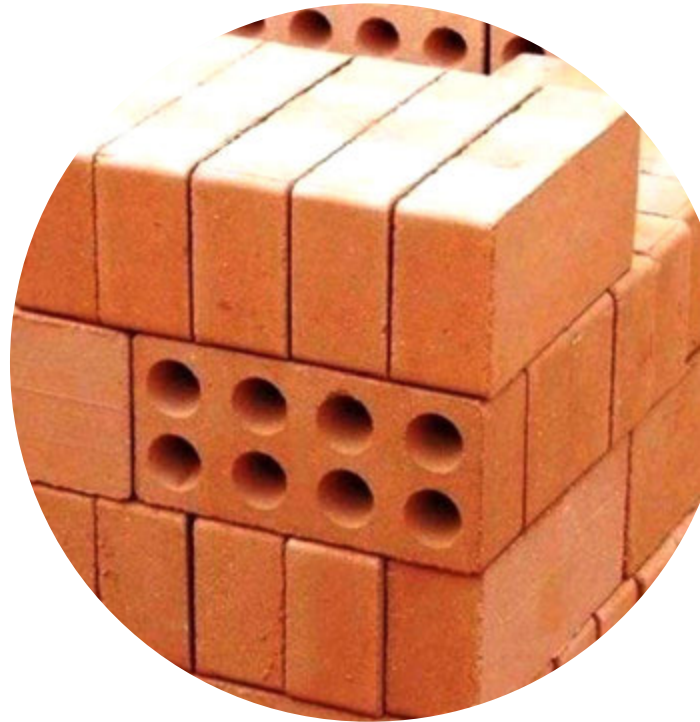

CABLES AND WIRES FOR THE MILITARY AND DEFENSE INDUSTRY

- Military field communication cables
- Wires and cables, side
- Wires and cables, pulse
- Wires made of resistance alloys
- Cables and wires symmetrical
- Cables antivibration
- Cables emitting
- Cables and wires power insulated
- Wires and cables assembly

CABLES, WIRES, CORDS OF COMMUNICATION

- Communication cables, coaxial
- Cables symmetrical
- Field Cables
- Communication cables, telephone
- Communication cable telephone distribution
- Cables for structured communication systems
- Wires, cords of communication
- Radio frequency cables
- Cables for television cameras
- Optical cables
- Waveguides

6. Construction Materials

BUILDING MATERIALS

- Concrete products
- Wood
- Insulation materials
- Fasteners
- Roofing
- Windows
- Polycarbonate
- Siding
- Gutter systems
- Building mixtures

FLOORS

- Carpet
- Laminate flooring
- Linoleum
- Parquet
- Skirting boards
- Warm floor

DECORATION MATERIALS

- Plasterboard systems
- Boarding
- Sealants
- Drywall
- Adhesive
- Varnishes, paints
- Wallpaper
- Films
- Ceilings
- Mixtures

DOORS INSTRUMENTS

- Protective equipment
- Measuring tools
- Painting tools
- Hand tool
- Garden tools

SANITARY ENGINEERING

- Water supply
- Flexible hoses and tubes
- Shutoff and control valves
- Measuring instruments
- Insulation materials
- Installation systems
- Tools for installation
- Sewage systems
- Boilers and boilers
- Materials for fastening
- Materials for installation
- Copper for roofs and facades
- Metal-plastic pipes
- Polypropylene systems
- Radiators and heated towel rails

- Expansion tanks and spare parts for them
- Ventilation systems
- Irrigation and water supply systems
- Filtration systems
- Siphons
- Mixers, faucets, showers
- Water meters
- Heat engineering

7. Closing-regulating armature

- Non-ferrous alloys stop valves
- Steel shut-off valves
- Ductile iron valves, muff
- Ductile iron flanged valves
- Electromagnetic locking valves
- Malleable cast iron flanged
- Electromagnetic coupling valves
- Non-ferrous alloys cone cranes
- Ball valves of non-ferrous alloys
- Steel ball valves
- Cranes from non-ferrous alloys, gas
- Taps, valves, non-ferrous alloys
- Special
- Shutters rotary disk
- Level indicators (locking devices)
- Cast iron gate valves
- Steel welded valves Py16
- Steel welded valves Py25
- Steel gate valves PN16
- Steel gate valves PN25
- Steel casting valves Ru40
- Steel gate valves PN16
- Valves from non-ferrous alloys
- Electric drives for valves
- Cranes from non-ferrous alloys
- Valves for heating devices

- Balancing valves
- Air ducts
- Regulators, electronic, valves
- Regulating and elevators
- Water pressure regulators
- Valves and valves made of non-ferrous alloys
- Reverse
- Butterfly valves and check valves
- Valves, steel, reverse
- Safety valves
- Steam Traps
- Watertight cranes
- Mesh and sump filters
- Compensators and flexible inserts

8. Mineral fertilizers

NITROGEN FERTILIZERS

- Ammonium nitrate
- Sodium nitrate
- Urea
- Calcium cyanamide

POTASH FERTILIZERS

- Potassium chloride
- Potassium sulphate
- Potassium salt

PHOSPHATE FERTILIZERS

- Double superphosphate
- Phosphorite flour

COMPLEX MINERAL FERTILIZERS

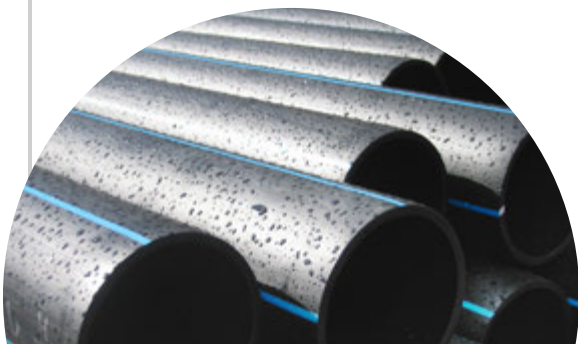

- Nitroammophoska (nitrophosphate)
- Nitrofusca
- Ammophos
- Diammophos

9. High and low-pressure pipelines

- Pipes (supplied by molding)
- Pipes (with ends treated with welding)
- Curved bends
- Short curved bends
- Branch bends
- Transitions welded, sheet
- Pressed transitions
- Transitions turned
- Transitions rolled
- Tees
- Fittings
- Blocks with nozzles
- Blocks with diaphragms
- Flanges with a ledge
- Flanges with a projection (connecting)
- Flanges with a hollow
- Flanges with branch pipe
- Flange connection
- Blanking plates

- Flat welded plugs
- Plugs elliptical
- Plugs with a branch pipe
- Throttle device
- Washers throttle
- Throttle tubes

10. ROLLED METAL PRODUCTS

STAINLESS LONG PRODUCTS

The assortment of delivered production:

	Circle	Square	Hexahedron
Diameter, mm	8,0 – 250,0 mm	15,0 – 250,0 mm	15x5 – 100x10

STAINLESS SHEET METAL

	Size, mm
Sheet	0,4 – 6,0 x 1000x2000 – 1250x2500 mm

Main marks: 12X18H10T, 08X18H10T, 08X18H10, 14X17H2, 10X17H13M2T, 20X13, 30X13, 40X13, AISI 304 and others.

PIPE STAINLESS STEEL

	hot-deformed	cold-deformed
Outside diameter, mm	57,0 – 325,0 mm	5,0 – 273,0 mm
Wall thickness, mm	3,5 – 32,0 mm	0,2 – 22,0 mm

PIPE STAINLESS ELECTRO-WELDING ROUND, RECTAGULAR AND SQUARE:

	Electrode Pipe	
	Round	Square / rectangular
Outside diameter, mm	6,0 – 508 mm	10x10 – 200x200/ 20x10 – 200x100
Wall thickness, mm	1,0 – 6,0 mm	1,0 – 5,0 mm

PROFILE PIPES

Ст1-3сп, Ст3сп5, Ст08пс

Pipes square steel	Rectangular steel pipes
Outside diameter from 15x15 mm to 300x300 mm Wall thickness from 1,0 mm to 12,0 mm	Outside diameter from 20x10 mm to 200x160 mm Wall thickness from 1,0 mm to 12,0 mm
Pipes square steel standards: GOST 8639-82 Steel pipes square. Assortment GOST 13663-86 Steel pipes profile. Technical conditions.	Rectangular steel pipes standards: GOST 8645-68 Rectangular steel pipes. Assortment GOST 13663-86 Steel pipes profile. Technical conditions.

Hot-deformed	Cold-deformed
Outside diameter from 32,0 mm to 550,0 mm Wall thickness from 3,0 mm to 90,0 mm	Outside diameter from 4,0 mm to 426,0 mm Wall thickness from 0,5 mm to 24,0 mm
Hot-deformed standards: GOST 8731-87 Steel pipes seamless hot-deformed. Technical requirements. GOST 8732-78 Steel pipes seamless hot-deformed. Assortment. GOST 8733-74 Steel pipes seamless cold-deformed and heat-deformed. Technical requirements.	Cold-deformed standards: GOST 8733-74 Steel pipes seamless cold-deformed and heat deformed. Technical requirements. GOST 8734-75 Steel pipes seamless cold-deformed. Assortment. GOST 9941-81 Seamless pipes cold and heat-deformed from corrosion-resistant steel. Technical conditions.

ELECTRIC-WELDED PIPES AND WATER-GAS PIPELINE

Cr3, Cr20

Water and gas pipes	Electrowelded straight pipe
Outside diameter from 15,0 mm to 50,0 mm Wall thickness from 2,8 mm to 3,5 mm	Outside diameter from 57,0 mm to 426,0 mm Wall thickness from 3,0 mm to 10,0 mm
Water and gas pipes. Standards: GOST 3262-75 Steel pipes water and gas. Technical conditions. GOST 380-94 Carbon steel ordinary quality. Brands.	Electrowelded straight pipe. Standards: GOST 10704-91 Steel pipes electrowelded, longitudinal welded. Assortment. GOST 10705-80 Steel pipes electrowelded. Technical specifications. GOST 10706-76 Steel pipes electrowelded, longitudinal welded. Technical specifications.

PIPES OF A LARGE DIAMETER

Cr.3 (cat. A, B and C), 17Г1С, 17Г1С-У, 13Г1С-У, 08ГБЮ, 09ГБЮ, 12ГСБ, 12Г2СБ, К34, К38, К42, К48, К50, К52, К54, К55, К56, К60, Cr2sp, Cr4cn, Cr5cn, Cr6cn10, 20, 45, 35, 10Г2, 20Х, 40Х, 30ХГСА, 15ХМ, 12ХН2, 30ХМА

Electrowelded straight pipe	Hot-deformed seamless pipes
Outer diameter from 508 mm to 1620 mm	
Wall thickness from 8,0 mm to 50,0 mm	
GOST 10704-91 Steel electric welded longitudinal pipes. Assortment. GOST 10705-80 Steel electric-welded pipes. Technical specifications.	

GOST 10706-76 Steel electric welded longitudinal pipes. Technical demands.

GOST 20295-85 Steel welded pipes for main oil pipelines. Technical specifications.

GOST 550-75 Pipes steel seamless for oil refining industry. Technical specifications.

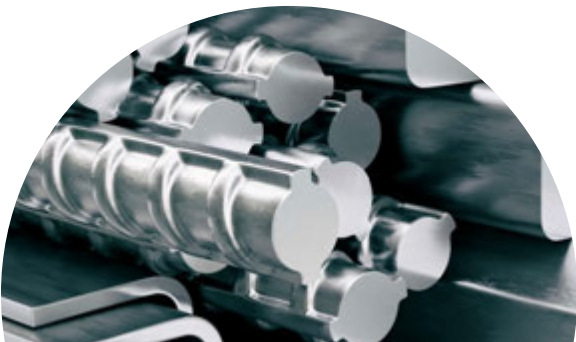

GOST 8731-74 Pipes hot-deformed seamless, general purpose, of carbon and alloy steel.

GOST 8731-87 Steel seamless hot-formed pipes. Technical conditions.

GOST 8732-78 Steel seamless hot-formed pipes. Assortment.
